Professional Profile

I have had significant experience in multinational contexts, in Italy and abroad, and in Italian public companies, covering Managing Director and CEO roles in medium/small size companies and previously a Senior Vice President position reporting to the FCA group CEO with direct accountability over a €1.2 Bln budget. I gained competences in complex management private and public setup (reorganizations, operational efficiency projects, cross-country integration leading international teams, business development in regulated markets, turnaround management and restructuring also under Court control) in different geographies. Specific expertise on all Supply Chain/Operations areas as well in Restructuring and Risk management.
